

WILLIAM PIZIO, Ph.D

THE ESSENTIAL GUIDE FOR HIGH SCHOOL JUNIORS AND SENIORS TO SURVIVE AND THRIVE IN COLLEGE

Up to 30% of college students will fail or dropout after their first year. 40% of college students never complete a 4-year degree. According to Dr. William Pizio, college professor, it's not because they're lazy or unintelligent...they simply aren't prepared.

HOW CAN WE HELP STUDENTS SUCCEED?

"High school is not an extension of college. It might very well be the hardest transition a student will have made so far in their life. Successfully navigating that transition is the key to success. You have to work hard to be an 'A' student in college. You have to work equally hard to get an 'F.' Any student can be a success in college. I repeat ANY."

~Dr William Pizio, author and college professor of 25 years

PRAISE FROM STUDENTS AND TEACHERS ALIKE

"I am a Student Affairs professional who has worked in Residence Life and First Year Experience for the past nine years. I can, without a doubt, say this should be required reading for every incoming first-year student."

~Brian Daniel

"The lessons in this book are so important to surviving college. The contents are approachable for any college bound students and speaks to them on their level."

~Sarah Skubic
